**It was shared at the Awards Banquet that Bonnie Hughston is not in good health. She could use encouraging words and thoughts from our membership. Her address is: Autumnwood, Bonnie Hughston, 220 Hughston, McBain, MI 49657. Cards would be appreciated.**

### **Rule Proposal**

Submitted by Dave Firman

I would like to propose a rule change, that the Election of Officers and Directors be moved back to the way it has been previously, in conjunction with the MRA Awards Banquet, not at the State Finals.

# Stallion Expo

## March 9-11, MSU Pavilion

**Help needed!** Every year the MRA has a presence at the Stallion Expo. This year we are in need of the following:

- 1) Members to man the booth during exhibit times.
- 2) Used ropes to sell

If you are able to take a shift, please contact Stuart Pletcher 989-233-9655 to schedule your time to work at the booth and represent the MRA.

LAST NAME	FIRST NAME	HEAD	HEEL	CALF
<b>Michigan Ropers' Association Rating Guidelines:</b>				
<p>You should only judge ropers that you have seen rope at jackpots recently. Rodeos and practice pen should not be used as strongly in determining the roper's rating - because we are roping several rounds and under some pressure. The last round of a roping should be the most important. If there is a question on a Header, leave them lower; on a Heeler, move them up - they will hurt a roping more than a wrongly numbered header. Age and sex should play a small part in your decision.</p>				
<p>1 A new roper who is learning. Also includes ropers who are inexperienced roping this particular end. (I.e. - a heeler who does not head, a calf roper who does not team rope)</p>				
<p>2 A roper who is now riding better and swings their rope more aggressively. Header: about half their catches will be neck catches; they are still inconsistent in handling of cattle. Heeler: Catching their steers on a more regular basis; still rope most of the steers by one foot. Consideration is taken into account for what part of the arena they catch at.</p>				
<p>3 Rides well and is putting runs together. Header will rope 5-7 steers out of 10; Heeler will rope 4-7 out of 10, catching over half by two feet. Roper is positioned correctly most of the time. Roper will start to stand out at ropings but will still not dominate them. They will be in the last round of the ropings most of the time.</p>				
<p>4 Headers: catch about the same number of steers as #3 (5-7 out of 10) but will catch most of them by the horns, rides the barrier well and handles cattle well. Heelers: rope more steers by two feet than the #3. These ropers will be in the last round of the ropings and also do well in lower level rodeos.</p>				
<p>5 Headers: catch 7-9 out of 10 and will rope almost all by two horns; handle their cattle well. They ride barriers extremely well and will always be in the last round of the ropings. Heelers: catch approx. 7-9 out of 10 of their steers by two feet. These ropers will do well at the Pro. Rodeos.</p>				
<p>6 Headers: Able to control the speed of the run &amp; handle cattle well. Will rope most steers in the upper 1/3 of the arena. Ride the barrier extremely well. Very consistent. Heeler: Catch most of their cattle by two feet. Usually in the right position to rope steers on the 3rd or 4th jump. Will most always be in the last round of the roping.</p>				
<p>7 Header: Rides the barrier extremely well and able to reach and rope steers consistently. Handle both horse &amp; steer well and able to make speed adjustments to the run as necessary. Heeler: Consistently in the correct position to rope the steer on the 2nd or 3rd jump. Has the ability to take time out of the run by his/her rope and horse handling skills.</p>				
<p>The + numbers system being utilized Team roper we feel that is excelling in current rating but not achieved the next rating level we will add a +, example: 3+ header can't rope with a 3+ heeler in the number 6, a 3+ header can rope with a 3 heeler in number 6) + Ropers are not eligible to rope in novice</p>
